**To,

Sub: Regarding pending grievances of members and procurement of essential stores.

1. Acute shortage of essential stores :

Optical fibers, PLP Pipe, Splicing kits, Drop wire etc. are running short since last two years in Rajasthan Circle. Due to acute shortage of these critical stores, development and maintenance work of telecom network is suffering badly. Poor maintenance of network badly affecting the quality of service; which is going deteriorated day by day. Bad quality of service and poor maintenance of network are main reasons for reduction in our customer base in turn decreasing of our revenue day by day. So, it is requested that process for procurement of these critical stores should be started earliest at appropriate level. Tender for procurement of drop wire should be floated earliest. Norms for using of Drop wire for installation of new telephone connection and maintenance of telephone connection should also be got revised at corporate office level. These norms had been fixed for upgraded telecom network, but, here in Rajasthan, prevailing situation of network is not existing as per standard norms fixed by BSNL headquarter.
